### Independent Auditor's Report

#### **Report on the Financial Statements**

We have audited the accompanying financial statements of the governmental activities and each major fund and the aggregate remaining fund information of Fremont Public Schools, as of and for the year ended June 30, 2013, and the related notes to the financial statements, which collectively comprise the School's basic financial statements as listed in the table of contents.

#### **Management's Responsibility for the Financial Statements**

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

#### **Auditor's Responsibility**

Our responsibility is to express opinions on these financial statements based on our audit. We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to Fremont Public School's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of Fremont Public School's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

#### **Opinions**

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities and each major fund and the aggregate remaining fund information of Fremont Public Schools as of June 30, 2013, and the respective changes in financial position, and, where applicable, cash flows thereof for the year ended in accordance with accounting principles generally accepted in the United States of America.

**Emphasis of Matter**

As described in Note O to the financial statements, Fremont Public Schools implemented Governmental Accounting Standards Board (GASB) Statement No. 62, *Codification of Accounting and Financial Reporting Guidance Contained in Pre-November 30, 1989, FASB and AICPA Pronouncements* and GASB Statement No. 63, *Financial Reporting of Deferred Outflows of Resources, Deferred Inflows of Resources, and Net Position*. Our opinion is not modified with respect to these matters.

**Other Matters**

**Required Supplementary Information**

Accounting principles generally accepted in the United States of America require that the management's discussion and analysis and budgetary comparison information be presented to supplement the basic financial statements. Such information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board who considers it to be an essential part of the financial reporting for placing the basic financial statements in an appropriate operation, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with the auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during the audit of the basic financial statements. We do not express an opinion or provide an assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

**Other Information**

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise Fremont Public School's basic financial statements. The combining and individual fund financial statements are presented for purposes of additional analysis and are not a required part of the basic financial statements. The schedule of expenditures of federal awards is presented for purposes of additional analysis as required by U.S. Office of Management and Budget Circular A133, *Audits of State and Local Governments, and Non-Profit Organizations*, and is also not a required part of the basic financial statements.

The combining and individual fund financial statements and the schedule of expenditures of federal awards are the responsibility of management and were derived from and relate directly to the underlying accounting and other records used to prepare the basic financial statements. Such information has been subjected to the auditing procedures applied in the audit of the basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the combining and individual fund financial statements and the schedule of expenditures of federal awards are fairly stated in the material respects in relation to the basic financial statements as a whole.

**Other Reporting Required by Government Auditing Standards**

In accordance with *Government Auditing Standards*, we have also issued our report dated October 22, 2013 on our consideration of Fremont Public Schools' internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters. The purpose of that report is to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on internal control over financial reporting or on compliance. That report is an integral part of the audit performed in accordance with *Government Auditing Standards* in considering Fremont Public School's internal control and compliance.

*H & S Companies, P.C.*

H & S Companies, P.C.

October 22, 2013

As management of Fremont Public Schools, we offer readers of the School's financial statements this narrative overview and analysis of the financial activities of the School for the fiscal year ended June 30, 2013. We encourage readers to consider the information presented here in conjunction with the School's financial statements, which immediately follow this section.

**FINANCIAL HIGHLIGHTS**

- The District's total net position of governmental activities decreased over \$1.9 million during the year and were just under \$5.4 million at June 30, 2013.
- General revenues accounted for \$18.2 million, or 76%, of all fiscal year 2013 revenues. Program specific revenues in the form of charges for services and grants and contributions accounted for over \$5.7 million or 24% of total fiscal year 2013 revenues. Revenues decreased over \$780,000 from the prior year. The major changes are decreases in property taxes, state aid, and other/sale of assets of \$699,000, \$279,000, and \$309,000, while operating grants were up nearly \$400,000.
- The District had about \$25.9 million in expenses related to governmental activities; of which over \$5.7 million of these expenses were offset by program specific charges for services or grants and contributions. General revenues of \$18.2 million covered 90% of the remaining costs of these programs. Expenses increased by \$1.3 million compared to last year. Instruction accounted for 1.29 million of this increase.
- The General Fund, a major fund for the District, had over \$19.0 million in revenue and other financing sources which primarily consisted of state aid and property taxes. The General Fund also had over \$19.8 million in expenditures and other uses. The General Fund's fund balance decreased by more than \$804,000.

General Fund revenues increased \$153,000 while expenditures were up by \$176,000 compared to the prior year.

- The Capital Projects - Building & Site Fund is also a major fund for the district. The Building & Site Fund earned \$2,600 in investment income and expended over \$7.4 million in construction, equipment purchases, and professional services related to the new school.
- The Debt Service Fund is also a major fund for the district. The Debt Service Fund property taxes decreased \$3,700 from the prior year level of \$2,991,000. The Debt Service Fund also received almost \$952,000 in bond interest credits from the federal government. Expenditures increased from \$4.76 million to \$6.94 million due to principal payments on the bonds. The Debt Service Fund Balance increased \$12,000.

- The Capital Projects-Sinking Fund and Food Service Funds are non-major funds for the District. Together they accounted for almost \$1,003,000 in revenue and \$1,032,000 in expenses. The fund balances of these funds decreased by \$29,000.

## **OVERVIEW OF FINANCIAL STATEMENTS**

This discussion and analysis is intended to serve as an introduction to the School's basic financial statements. The Schools' basic financial statements are comprised of three components: 1) government wide financial statements, 2) fund financial statements, and 3) notes to the financial statements. This report also contains other supplementary information in addition to the basic financial statements themselves.

The District-wide Statement of Net Position and Statement of Activities are reported using the full accrual basis of accounting. With this method all of the District's assets and liabilities, and all of the current year revenues and expenditures, are reported regardless of when cash is received or paid. These statements provide information about the activities of the School District as a whole and present a longer-term view of the School District's finances. For example, the Statement of Activities details how the District's services were financed in the short-term and the amount that remains for future spending. The Statement of Net Position aggregates the District's restricted and unrestricted assets as well as short and long-term obligations recorded in all funds.

The fund-level statements are reported using a modified accrual basis of accounting. That is, only those assets that are "measurable" and "currently available" are reported, and liabilities are recognized to the extent they would normally be paid with current financial resources. Fund financial statements report the School District's operations in more detail than the district-wide financial statements by providing information about the School District's most significant funds – the General Fund, Building & Site Fund, Debt Funds, and Special Services Funds which are comprised of: Food Service and Capital Projects Sinking Fund.

The Notes to the Financial Statements provide additional information that is essential to a full understanding of the data provided in the government-wide and fund financial statements. The notes to the financial statements can be found on pages 20-36 of this report.

## **FINANCIAL POSITION AND RESULTS OF OPERATIONS**

The District's *net position* – the difference between assets and liabilities, as reported in the Statement of Net Position, is one way to measure the School District's financial health, or *financial position*. Over time, increases or decreases in the District's net position, as reported in the Statement of Activities, is one indicator of whether its *financial health* is improving or deteriorating. The relationship between revenues and expenses indicates the School District's *operating results*. However, the School District's goal is to provide services to its students, not to generate profits as commercial entities do. Many other non-financial factors, such as the quality of the education provided and the safety of the schools, must also be considered when assessing the *overall health* of the School District.

The following summarizes the net position at fiscal years ended June 30, 2013 and 2012:

**Net Position Summary**

<b>Assets</b>	<u><b>2013</b></u>	<u><b>2012</b></u>
Current Assets	\$ 7,202,273	\$ 14,766,794
Capital Assets	70,914,330	63,493,607
Less: Accumulated Depreciation	<u>(16,304,726)</u>	<u>(14,202,655)</u>
Capital Assets, Net Book Value	<u>54,609,604</u>	<u>49,290,952</u>
Total Assets	<u><u>\$ 61,811,877</u></u>	<u><u>\$ 64,057,746</u></u>
<b>Liabilities</b>		
Current Liabilities	\$ 5,666,097	\$ 5,063,869
Long-Term Liabilities	<u>50,748,657</u>	<u>51,607,120</u>
Total Liabilities	56,414,754	56,670,989
<b>Net Position</b>		
Net Investment in Capital Assets	3,536,331	4,704,985
Restricted for Debt Service	218,753	206,743
Unrestricted	<u>1,642,039</u>	<u>2,475,029</u>
Total Net Position	<u>5,397,123</u>	<u>7,386,757</u>
Total Liabilities and Net Position	<u><u>\$ 61,811,877</u></u>	<u><u>\$ 64,057,746</u></u>

**Results of Operations:**

For the fiscal years ended June 30, 2013 and 2012, the District wide results of operations were:

	Year Ended 2013		Year Ended 2012	
	<u>Amount</u>	<u>%</u>	<u>Amount</u>	<u>%</u>
Revenues:				
Program Revenues:				
Charges for Services	\$ 783,996	3.27	\$ 696,873	2.82
Operating Grants/Contr.	4,983,584	20.79	4,520,346	18.29
General Revenues:				
Property Taxes	5,107,879	21.31	5,807,007	23.50
State Aid	13,059,394	54.48	13,338,842	53.98
Interest and Other	36,263	0.15	345,625	1.40
Total Revenue	<u>23,971,116</u>	<u>100.00</u>	<u>24,708,693</u>	<u>100.00</u>
Expenses:				
Instruction				
Basic Programs	11,991,670	46.19	11,087,669	45.11
Added Needs	3,643,014	14.03	3,265,414	13.28
Adult Education	47,676	0.18	33,516	0.14
Total Instruction	<u>15,682,360</u>	<u>60.41</u>	<u>14,386,599</u>	<u>58.53</u>
Support Services				
Pupil	567,616	2.19	563,854	2.29

School Administration	1,142,765	4.40	1,116,950	4.54
Business	248,926	0.96	304,766	1.24
Operations/Maintenance	1,476,121	5.69	1,413,109	5.75
Pupil Transportation	868,692	3.35	832,002	3.38
Central	344,799	1.33	332,793	1.35
Total Support Services	<u>5,283,056</u>	<u>20.35</u>	<u>5,219,037</u>	<u>21.23</u>
Community Services	367,913	1.42	377,285	1.53
Food Service	944,988	3.64	833,094	3.39
Athletics	449,209	1.73	440,483	1.79
Capital Outlay	21,503	0.08	139,763	0.57
Interest on Debt	3,211,721	12.37	3,184,277	12.95
Total Expenses	<u>25,960,750</u>	<u>100.00</u>	<u>24,580,538</u>	<u>100.00</u>
Change in Net Position	(1,989,634)		128,155	
Beginning Net Position	7,386,757		7,258,602	
Ending Net Position	<u><u>\$ 5,397,123</u></u>		<u><u>\$ 7,386,757</u></u>	

**Debt Administration**

At year-end, the District had over \$52.5 million in long-term obligations of which \$1,860,000 is due within one year. The following table presents a summary of the District's outstanding long-term debt for the fiscal year ended June 30, 2013.

Early Retirement	\$	100,000
Compensated Absences		51,206
Bond Issues		52,348,800
	<u>\$</u>	<u>52,500,006</u>

**Depreciation Expense**

GASB 34 requires school districts to maintain a record of annual depreciation expense and accumulated depreciation. The net increase in accumulated depreciation expense is a reduction in net position.

For fiscal year ended June 30, 2013, the net increase in accumulated depreciation was \$2,102,071. Depreciation expense totaled \$2,102,071 and \$0 was removed due to asset disposals.

Depreciation expense is recorded on a straight-line basis over the estimated useful lives of assets. In accordance with generally accepted accounting principles (GAAP), depreciation expense is recorded based on the original cost of the asset less an estimated salvage value.

One way to think of depreciation expense is that in order to maintain net position at the same level, acquisitions of capital outlay and capitalized major maintenance projects would have to equal the annual depreciation expense. In other words, to stay even in net position the District would have had to purchase and capitalize \$2,102,071 in assets during the year.

**Capital Outlay Acquisitions**

Actual capital outlay acquisitions during the year were \$7,456,557 while \$0 of assets were disposed of for the fiscal year ended June 30, 2013.

Net Acquisitions combined with the increase in accumulated depreciation, net investment in capital assets (i.e., net book value) increased by \$5,354,486 during the year.

Since accumulated depreciation is based on original cost, it does not take into consideration inflation. As a result, the actual investment in capital outlay would have to be more than depreciation expense in order to maintain assets at the same level of maintenance and upkeep.

**Property Taxes levied for General Operations (General Fund Property Taxes)**

The District levies 18 mills of property tax for operations (General Fund) on Non-Homestead Properties. In 2008, commercial personal property became exempt from the first 12 mills "non-homestead" operating millage levied. This resulted in a decrease in the non-homestead tax levy. Under Michigan law, the taxable levy is based on the taxable valuation of properties. Annually, the taxable valuation increase in property values is capped at the rate of the prior year's CPI increase or 5%, whichever is less. At the time of sale, a property's taxable valuation is readjusted to the State Equalized Value, which is, theoretically, 50% of the market value.

The District's non-homestead property levy for the 2012-2013 fiscal year was \$2,176,478. The non-homestead tax levy increased by .42% over the prior year.

The following summarizes the District's non-homestead levy the past five years:

<u>Fiscal Year</u>	<u>Non-Homestead Levy</u>	<u>% Increase from Prior Year</u>
2012-2013	2,176,478	0.42%
2011-2012	2,167,268	-2.01%
2010-2011	2,211,646	-1.14%
2009-2010	2,237,091	2.55%
2008-2009	2,181,518	-16.35%
Average Decrease Last 5 Years		-3.30%

**State of Michigan Aid, Unrestricted**

That State of Michigan aid, unrestricted is determined by the following variables:

- a. State of Michigan State Aid Act per student foundation allowance
- b. Student Enrollment – Blended at 90% of current year fall count and 10% of prior year winter count
- c. The District's non-homestead levy

**Per Student, Foundation Allowance:**

Annually, the State of Michigan sets the per student foundation allowance. The Fremont Public Schools foundation allowance was \$6,966 per student for the 2012-2013 school year. This represented an increase of \$120 per student compared to the allowance of \$6,846 for the 2011-2012 school year. Fremont Public Schools also received an additional \$152 per pupil to help offset increased retirement costs and for implementing best practices as defined by the State.

**Student Enrollment:**

The District's student enrollment for the fall count of 2012-2013 was 2,207 students. The following summarizes fall student enrollments in the past five years:

	<u>Student FTE</u>	<u>FTE Change from Prior Year</u>
2012-2013	2,207	(87)
2011-2012	2,294	22
2010-2011	2,272	(103)
2009-2010	2,375	12
2008-2009	2,363	(102)

**Property Taxes levied for Debt Service**

The District's debt fund levy, which is used to pay the principal and interest on bond obligations, is based on the taxable valuation of all properties: homestead and non-homestead. In addition, the District collects IFT (Industrial Facilities Taxes) in lieu of taxes, which are essentially taxed at 50% of the regular tax rate.

For 2012-2013 the District's debt millage levy was 7.0 mills, which generated a levy of \$2,989,806.

**Food Service Sales to Students & Adults:**

The District's food and milk sales to students and adults increased by \$76,000 from the prior school year. State Sources increased \$7,000 while Federal Sources increased \$47,000. The total expenditures for Food Service operations increased by \$114,000 from the prior year. Revenues exceeded expenditures by almost \$15,000.

**GENERAL FUND BUDGET & ACTUAL REVENUES & EXPENDITURES**

**General Fund Expenditures Budget vs. Actual 5-Year History**

Fiscal Year	Expenditures Original Budget	Expenditures Final Budget	Expenditures Final Actual	Expenditures Variance Actual & Original Budget	Expenditures Variance Actual & Final Budget
2008-2009	20,703,239	20,529,401	20,380,228	-1.56%	-0.73%
2009-2010	20,294,554	19,873,689	19,558,705	-3.63%	-1.58%
2010-2011	19,714,805	19,814,178	19,597,988	-0.59%	-1.09%
2011-2012	19,394,831	19,835,745	19,685,220	1.50%	-0.76%
2012-2013	19,424,365	19,935,915	19,861,047	2.25%	-0.38%
Five-Year Average Over (Under) Budget				-0.41%	-0.93%

**General Fund Revenue Budget vs. Actual 5-Year History**

Fiscal Year	Revenues Original Budget	Revenues Final Budget	Revenues Final Actual	Revenues Variance Actual & Original Budget	Revenues Variance Actual & Final Budget
2008-2009	20,683,606	20,448,967	20,423,629	-1.26%	-0.12%
2009-2010	20,203,460	19,990,552	20,004,574	-0.98%	0.07%
2010-2011	19,515,608	19,834,996	19,671,992	0.80%	-0.82%
2011-2012	18,692,228	19,181,335	19,140,950	2.40%	-0.21%
2012-2013	18,968,064	19,217,119	19,056,909	0.47%	-0.83%
Five-Year Average Over (Under) Budget				0.29%	-0.42%

**General Fund Budgetary Highlights:**

Over the course of the year, the School District revises its budget as it attempts to deal with changes in revenues and expenditures. State law requires that the budget be amended to ensure that expenditures do not exceed appropriations. A schedule showing the School District's original and final budget amounts compared with amounts actually paid and received is provided in required supplemental information of these financial statements.

**General Fund Revenues:**

Total Revenues Original Budget	\$ 18,968,064	
Total Revenues Final Budget	<u>\$ 19,217,119</u>	
Increase in Budgeted Revenues	<u>\$ 249,055</u>	1.31%

The District's final general fund revenues differed from the final budget by \$160,210. This is a variance of .84%.

The Final revenue budget reflects the following changes from the original budget:

- Increase in Local Sources
- Increase in Federal Title I Funds

**General Fund Expenditures:**

Total Expenditures Original Budget	\$ 19,424,365	
Total Expenditures Final Budget	<u>\$ 19,935,915</u>	
Increase in Budgeted Expenditures	<u>\$ 511,550</u>	2.63%

The District's final general fund expenditures differed from the final budget by \$74,868. This is a variance of .38%.

The Final expenditure budget reflects the following changes from the original budget:

- Increase due to MPERS offset flow through for UAAL
- Increase in Title I Expenditures

**ECONOMIC FACTORS AND NEXT YEAR'S BUDGET AND RATES**

Many factors were considered by the District's administration during the process of developing the fiscal year 2013-2014 budget. The primary factors include the previous history of declining enrollment and the per pupil foundation allowance. Also considered in the development of the budget is the local economy. These indicators were considered when adopting the budget for fiscal year 2013-2014. Budgeted expenditures in the General Fund are \$19,141,825 which is a 3.62% decrease from the 2012-2013 actual expenditures. General Fund Revenues were budgeted at 19,201,095. This is a .08% decrease from the 2012-2013 actual revenues.

**CONTACTING THE DISTRICT'S FINANCIAL MANAGEMENT**

This financial report is designed to provide our citizens, taxpayers, investors and creditors with a general overview of the District's finances and to demonstrate the District's accountability for the resources it receives. If you have any questions about this report or need additional information, contact the Administration Offices, Fremont Public Schools, 450 E. Pine Street, Fremont, MI 49412.

Reconciliation of the Balance Sheet  
of Governmental Funds to the Statement of Net Position  
June 30, 2013

Total Governmental Fund Balances \$ 3,396,176

Total Net Position reported for governmental activities in the statement of Net Position are different from the amount reported as total governmental funds fund balance because:

Capital assets used in governmental activities are not financial resources and therefore are not reported in the fund statements. Amounts reported for governmental activities in the statement of

Governmental Capital Asset	70,914,329
Governmental Accumulated Depreciation	(16,304,727)

Long-term liabilities, including notes payable, are not due in the current period and therefore are not reported in the fund statements. Long-term liabilities reported in the statement of Net position that are not reported in the funds balance sheet are. Also, bond issuance costs, premiums, discounts, and similar items are reported in the governmental funds as expenditures when debt is first issued, whereas these amounts are deferred and amortized in the statement of Net position. This amount is the net effect of these differences in the treatment of long-term debt and related items.

General Obligation Debt	<u>(52,608,655)</u>

## FREMONT PUBLIC SCHOOLS

### Reconciliation of Statement of Revenues, Expenditures and Changes in Fund Balances of Governmental Funds to the Statement of Activities For the Year Ended June 30, 2013

Net Change in Fund Balances - Total Governmental Funds \$ (8,250,605)

Amounts reported for governmental activities in the statement of activities are different because:

The acquisition of capital assets are reported in the governmental funds as expenditures. However, for governmental activities those costs are shown in the statement of Net Position and allocated over their estimated useful lives as annual depreciation expense.

Capital outlay reported in governmental fund statements	7,456,557	
Depreciation expense reported in the statement of activities	<u>(2,102,071)</u>	
Amount by which capital outlays are more than depreciation and sale of assets in the current period.		5,354,486

The issuance of long-term debt provides current financial resources to governmental funds, while the repayment of the principal of long-term debt consumes the current financial resources of governmental funds. Neither transaction has any effect on Net Position. Also, governmental funds report the effect of issuance costs, premiums, discounts, and similar items when debt is first issued, whereas these amounts are amortized in the statement of activities.

Proceeds from debt issues in the current year	(3,042,554)	
The amount of debt principal payments in the current year is:	3,818,855	
Current year bond issue premium and issuance costs net of amortization.	<u>(20,627)</u>	
		755,674

(Increase) Decrease in compensated absences that are recorded when earned in the statement of activities. (4,190)

(Increase) Decrease in post-retirement benefits that are recorded when earned in the statement of activities. 155,000

## FREMONT PUBLIC SCHOOLS

Notes to the Financial Statements  
For the Year Ended June 30, 2013

### NOTE A SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

The financial statements of the Fremont Public School District have been prepared in conformity with accounting principles generally accepted in the United States of America as applied to government units. The Governmental Accounting Standards Board (GASB) is the accepted standard-setting body for establishing governmental accounting and financial reporting principles.

The more significant of the District's accounting policies are described below.

#### 1. Reporting Entity

Fremont Public Schools (the District) was organized under the School Code of the State of Michigan and services a population of approximately 2,200 students. The District is governed by an elected Board of Education consisting of seven members and administered by a Superintendent who is appointed by the aforementioned Board. The District provides a comprehensive range of educational services as specified by state statute and Board of Education policy. These services include elementary education, secondary education, pre-school programs, athletic activities, special education, vocational education, community services, and general administrative services. The accounting policies of Fremont Public Schools conform to generally accepted accounting principles as applicable to school districts. The following is a summary of the more significant policies.

In accordance with the provisions of the Governmental Accounting Standard's Board (GASB) Statement #14, "The Financial Reporting Entity" as amended by GASB Statement #39, "Determining Whether Certain Organizations are Component Units", the financial statements of Fremont Public Schools contain all the funds and account groups that are controlled by, or dependent on, the District's Board of Education, including all activities considered by the Michigan Department of Education and state law to be a part of the operations of Fremont Public Schools. Control by, or dependence on, the District was determined on the basis of appointment of governing authority, budget adoption, taxing authority, outstanding debt secured by revenues or general obligations of the District, obligation of the District to finance any deficits that may occur, receipt of significant subsidies from the District, disposition of surplus funds, and scope of public service.

#### 2. Government-Wide and Fund Financial Statements

activities) present financial information about the District as a whole. The reported information includes all of the nonfiduciary activities of the District. For the most part, the effect of interfund activity has been removed from these statements. These statements are to distinguish between the governmental and business-type activities of the District. Governmental activities normally are supported are supported by taxes and intergovernmental revenues, and are reported separately from business-type activities, which rely to a significant extent on fees and charges for support. The District does not have any business-type activities.

The statement of activities demonstrates the degree to which the direct expenses of a given function or segment are offset by program revenues. *Direct expenses* are those that are clearly identifiable with a specific function or segment.

Notes to the Financial Statements (continued)

*Program revenues* include: 1) charges to customers or applicants who purchase, use, or directly benefit from goods, services, or privileges provided by a given function or segment and 2) grants and contributions that are restricted to meeting the operational or capital requirements of a particular function or segment. Taxes, State and County aid, and other items not included among program revenues are reported instead as *general revenues*.

Separate financial statements are provided for governmental funds and fiduciary funds, even though the latter is excluded from the government-wide financial statements. Major individual governmental funds are reported as separate columns in the fund financial statements.

3. Measurement Focus, Basis of Accounting and Financial Statement Presentation

Government-Wide Financial Statements - The government-wide financial statements are reported using the *economic resources measurement focus* and the *accrual basis of accounting*, as is the fiduciary fund financial statements. Revenue is recorded when earned and expenses are recorded when a liability is incurred, regardless of the timing of related cash flows. Property taxes are recognized as revenue in the year for which they are levied. Grants and similar items are recognized as revenue as soon as all eligibility requirements imposed by the provider have been met. As a general rule, the effect of interfund activity has been eliminated from the government-wide financial statements.

Fund Financial Statements - Governmental fund financial statements are reported using the *current financial resources measurement focus* and the *modified accrual basis of accounting*. Revenue is recognized as soon as it is both measurable and available. Revenue is considered to be available if it is collected within the current period or soon enough thereafter to pay liabilities of the current period. For this purpose, the government considers revenues to be available if they are collected within 60 days of the end of the current fiscal period. Expenditures are generally recorded when a liability is incurred, as under accrual accounting.

However, debt service resources are provided during the current year for payment of general long-term debt principal and interest due early in the following year and, therefore, the expenditures and related liabilities have been recognized. Compensated absences are recorded only when payment is due.

Property taxes, State and County aid and investment income associated with the current fiscal period are all considered to be susceptible to accrual and so have been recognized as revenues of the current fiscal period. Food services and miscellaneous revenues are not susceptible to accrual because generally they are not measurable until received in cash. Grants and similar awards are recognized as revenue as soon as all eligibility requirements imposed by the grantor or provider have been met. Unearned revenues also arise when resources are received by the District before it has a legal claim to them, as when grant monies are received prior to meeting all eligibility requirements imposed by the provider.

When both restricted and unrestricted resources are available for use, it is the District's policy to use restricted resources first, then unrestricted resources as they are needed.

Notes to the Financial Statements (continued)

The District reports the following major governmental funds:

General Fund - The General Fund accounts for all resources used to finance District maintenance and operation except those required to be accounted for in other funds. Expenditures are classified in accordance with the Michigan School Accounting Manual, issued by the Michigan Department of Education as follows:

**Instruction** - Instruction includes the activities dealing directly with the teaching of pupils or the interaction between teacher and pupils. Teaching may be provided for pupils in a school classroom; in another location, such as in a home or hospital and in other situations, such as those involving co-curricular activities. It may also be provided through some other approved medium, such as television, radio, telephone, and correspondence. Included here are the activities of aides, assistants of any type, and supplies and machines, which assist directly in the instructional process.

**Supporting Services** - Supporting Services are those services which provide administrative, technical (such as guidance and health), and logistical support to facilitate and enhance instruction and, to a lesser degree, community services. Supporting services exist as adjuncts for the fulfillment of the objectives of instruction, rather than as entities within themselves.

**Community Services** - Community Services consist of those activities that are not directly related to providing education for pupils in a school system. These include services provided by the school system for the community as a whole or some segment of the community, such as community recreation programs, civic activities, public libraries, programs of custody and care of children, and community welfare activities.

**Interdistrict** - Interdistrict transactions consist of conduit-type (outgoing transfer) payments to other school districts or administrative units in the state or in another state not identified in the above classifications.

Debt Service Funds - Debt Service Funds are used to account for the accumulation of resources for, and the payment of, general long-term debt principal, interest, and related costs.

Capital Projects Fund-Building & Site Fund - The Building & Site Fund is used to account for financial resources to be used for the construction of a new high school. The Building & Site Capital Project Fund records this construction activity funded with Building & Site Fund millage. For this fund, the School district has complied with the applicable provisions of Sec. 1212(1) of the Revised School Code and the applicable section of the Revised Bulletin for School District Audits of bonded Construction Funds and of Sinking Funds in Michigan.

The District also reports the following non-major funds:

Special Revenue Fund - Special Revenue Funds are used to account for the proceeds of specific revenue sources that are restricted to expenditure for specified purposes.

**School Service Funds** - School Service Funds are used to segregate, for administrative purposes, the transactions of a particular activity from regular revenue and expenditure accounts. The School District maintains full control of these funds. The School Service Fund maintained by the School District is the Food Service Fund.

Capital Projects Fund- Sinking Fund - The Sinking Fund is used to account for financial resources to be used for the acquisition, construction, renovation or repair of major capital facilities. The Sinking Fund Capital Project Fund records capital project activities funded with Sinking Fund millage. For this fund, the School district has complied with the applicable provisions of Sec. 1212(1) of the Revised School Code and the applicable section of the Revised Bulletin for School District Audits of bonded Construction Funds and of Sinking Funds in Michigan.

Additionally, the District also reports the following fund types:

Fiduciary Fund - The Fiduciary Fund accounts the for assets held by the District on behalf of others and include the Student Activities Fund. This fund accounts for monies raised by students to finance student clubs and organizations.

The focus of governmental fund financial statements is on major funds rather than reporting funds by type. Each major fund is presented in a separate column. Non-major funds are aggregated and presented in a single column. Fiduciary funds are reported by fund type.

#### 4. Deposits and Investments

The District's cash and cash equivalents are considered to be cash on hand, demand deposits, and short-term investments with original maturities of three months or less from the date of acquisition. Investment income is composed of interest and net changes in the fair value of applicable investments. Investment income is included in other local revenue in the fund financial statements.

#### 5. Receivables and Payables

Activity between funds that are representative of lending/borrowing arrangements outstanding at the end of the fiscal year are referred to as either "due to/from other funds" (i.e., the current portion of interfund loans) or "advances to/from other funds" (i.e., the non-current portion of interfund loans). All other outstanding balances between funds are reported as "due to/from other funds."

Property tax levies are obtained by applying tax rates against the taxable valuation. Taxable valuation is based upon the property's state equalized value (which approximates ½ actual value). However, the taxable valuation is limited to a 5% increase from the previous year, while there is no limit to the increase in property values for state equalized valuation.

The State of Michigan utilizes a foundation allowance funding approach, which provides for a specific annual amount of revenue per student based on a state-wide formula. The foundation allowance is funded from a combination of state and local sources. Revenues from state sources are primarily governed by the School Aid Act and the School Code of Michigan. The state portion of the foundation is provided from the state's School Aid Fund and is recognized as revenue in accordance with state law.

The School District also receives revenue from the state to administer certain categorical education programs. State rules require that revenue earmarked for these programs be used for its specific purpose. Certain categorical funds require an accounting to the state of the expenditures incurred. For categorical funds meeting this requirement, funds received, which are not expended by the close of the fiscal year, are recorded as deferred revenue. Other categorical funding is recognized when the appropriation is received.

Federal revenues are recorded as they are earned by the District under terms of specific grants.

Notes to the Financial Statements (continued)

Receivables as of year end for the school's individual major fund and nonmajor funds in aggregate are as follows:

	General Fund	Combined Nonmajor Funds	Total
Accounts Receivable	\$ 61,145	\$ -	\$ 61,145
Due from Other Governments	3,002,034	9,505	3,011,539
	<u>\$ 3,063,179</u>	<u>\$ 9,505</u>	<u>\$3,072,684</u>

6. Inventories

Inventories are stated at cost using the first-in, first-out method. Inventory in the General Fund consists of copy center supplies and operating supplies for the bus garage. The Food Service Fund inventory consists of food and other nonperishable supplies.

The inventories of the General Fund and Food Service are accounted for as expenditures at the time of purchase. Inventories reported for the General Fund and Food Service on the financial statements are offset by an equal fund balance reserve. Following is a schedule of the basic components in ending inventory:

	General Fund	Special Revenue
Operating Supplies	\$ 37,422	\$ -
Copy Center Supplies - Paper	3,246	-
Food and Non-Food Supplies	-	34,641
Total Inventories	<u>\$ 40,668</u>	<u>\$ 34,641</u>

7. Prepaid Items

Certain payments to vendors reflect costs applicable to future accounting periods and are recorded as prepaid items in both the government-wide and fund financial statements. Prepaid items are recorded as expenses when consumed.

8. Unearned Revenue

Governmental funds report unearned revenue in connection with receivables for revenue that are not considered to be available to liquidate liabilities of the current period. Governmental funds also defer revenue recognition in connection with resources that have been received but not yet earned. At the end of the current fiscal year, the various components of deferred revenue are as follows:

	Unavailable	Unearned
Grants	\$ -	\$ 293,277

9. Capital Assets

Capital assets, which include land and improvements, buildings and improvements, vehicles, furniture, equipment and construction in progress, are reported in the applicable governmental activities column in the government-wide financial statements.

Notes to the Financial Statements (continued)

Capital assets are defined by the District as assets with an initial, individual cost of more than \$5,000 and an estimated useful life in excess of one year. Such assets are recorded at historical cost or estimated historical cost if purchased or constructed. Donated capital assets are recorded at estimated fair market value at the date of donation.

The costs of normal maintenance and repairs that do not add to the value of the asset or materially extend assets lives are not capitalized.

Capital Assets are depreciated using the straight-line method over the following useful lives:

Land Improvements	20 - 25 Years
Buildings and Improvements	20 - 50 Years
Vehicles, Furniture and Equipment	5 - 15 Years

10. Long-term Obligations

In the government-wide financial statements, long-term debt and other long-term obligations are reported as liabilities on the statement of net position. Bond premiums and discounts, as well as issuance costs, are deferred and amortized over the life of the bonds using the effective interest method. Bonds payable are reported net of the applicable bond premium or discount.

In the fund financial statements, governmental fund types recognize bond premiums and discounts, as well as bond issuance costs, during the current period. The face amount of debt issued is reported as other financing sources. Premiums received on debt issuances are reported as other financing sources, while discounts on debt issuances are reported as other financing uses. Issuance costs, whether or not withheld from the actual debt proceeds received, are reported as debt service expenditures.

11. Net Position

Net Position represents the difference between assets and deferred outflows of resources, less liabilities and deferred inflows of resources. Fremont Public Schools report three categories of net position, as follows: (1) Net investment in capital assets consists of net capital assets reduced by outstanding balances of any related debt obligations and deferred inflows of resources attributable to the acquisition, construction, or improvement of those assets, and increases by balances of deferred outflows of resources related to those assets; (2) Restricted net position is considered restricted if its use is constrained to a particular purpose. Restrictions are imposed by external organizations, such as federal or state laws or buyers of Fremont Public Schools debt. Restricted net position is reduced by liabilities and deferred inflows of resources related to the restricted assets; (3) Unrestricted net position consists of all other net position that does not meet the definition of the above components and is available for general use by Fremont Public Schools.

12. Fund Equity

In the fund financial statements, governmental funds report the following classifications of fund balance:

Non-spendable - Includes amounts that cannot be spent because they are either not spendable in form or are legally or contractually required to be maintained intact.

Restricted -Includes amounts restricted by external sources (creditors, laws of other governments, etc.) or by constitutional provision or enabling legislation.

Notes to the Financial Statements (continued)

Committed - Includes amounts that can only used for specific purposes determined by a formal action by Board resolution. These amounts cannot be used for any other purpose unless the Board removes or changes the specified use by taking the same type of action (Board resolution) that was employed when the funds were initially committed.

Assigned - Includes amounts a government intends to use for specific purpose. Intent can be expressed by the Board or by an official or body to which the Board delegates the authority.

Unassigned - Includes amounts that are available for any purpose. Positive amounts are only reported in the General Fund.

Restricted sources are used first when an expense is incurred for which both restricted and unrestricted resources are available. When an expenditure is incurred for which committed, assigned, or unassigned fund balances are available, Fremont Public Schools consider amounts to have been spent first out of committed funds, then assigned funds, and finally unassigned funds, as needed, unless the Board has provided otherwise in its commitment or assignment actions.

13. Encumbrances

Encumbrance accounting is used for the General Fund, special revenue funds, and capital projects funds. Encumbrances are recorded when purchase orders are issued but are not considered expenditures until liabilities for payments are incurred. Encumbrances are reported in the appropriate fund balance classification based on the definition and criteria for fund balance classifications. Encumbrances lapse at the close of the fiscal year and outstanding encumbrances at year-end are reappropriated in the next year. Accordingly, no differences exist between actual results and the applicable budgetary data presented in the accompanying combined financial statements.

14. Estimates

The preparation of the financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the amount reported in the financial statements and accompanying notes. Actual results may differ from those estimates.

15. Interfund Activity

Flows of cash from one fund to another without a requirement for repayment are reported as interfund transfers. Interfund transfers between governmental funds are eliminated in the Statement of Activities. Interfund transfers in the fund financial statements are reported as other financing sources/uses.

NOTE B DEPOSITS AND INVESTMENTS

INVESTMENTS

The School District is authorized by Michigan Law to invest surplus monies in U.S. bonds and notes, certain commercial paper, U.S. government repurchase agreements, bankers acceptances and mutual funds and investment pools that are composed of authorized investment vehicles.

The District held the following deposits and investments at year end:

Petty Cash	\$ 1,759
Cash and Time Deposits	1,642,673
Certificates of Deposit	152,262
External Investment Pool (2a-7 like pool)	228,651
Cash Management Money Market Funds	2,449,205
	<u>\$ 4,474,550</u>

Notes to the Financial Statements (continued)

Investments are normally categorized to give an indication of the level of risk assumed by the District; however, cash management funds are not categorized because they are not evidenced by securities that exist in physical or book entry form. The MBIA is a 2a-7 like pool. The fair value of the pool is determined by the pool's share price. The District has no regulatory oversight for the pool.

*Custodial credit risk* is the risk that, in the event of the failure of a financial institution, Fremont Public Schools will not be able to recover its deposits. Fremont Public School's investment policy does not specifically address custodial credit risk for deposits. At June 30, 2013, \$4,212,304 of Fremont Public School's bank balances of \$5,237,979 was exposed to custodial credit risk because it was uninsured and uncollateralized.

*Credit Risk* -Generally, credit risk is the risk that an issuer of a debt type investment will not fulfill its obligation to the holder of the investment. This is measured by assignment of a rating by a nationally recognized rating organization. U.S. Government securities or obligations explicitly guaranteed by the U.S. government are not considered to have credit risk exposure. The District's MBIA Michigan Class Pool is rated AAA-V1 by Fitch.

As of June 30, 2013, \$4,212,304 of the school district's bank balance of \$5,237,979 was exposed to custodial credit risk as follows:

Uninsured and Uncollateralized	\$ 1,750,322
Uninsured and collateral held by pledging bank's trust department not in District's name.	2,461,982
	<u>\$ 4,212,304</u>

The School District believes that due to the dollar amounts of cash deposits and the limits of FDIC insurance, it may be impractical to insure all bank deposits. As a result, the School District evaluates each financial institution with which it deposits School District funds and assesses the level of risk of each institution; only those institutions with an acceptable estimated risk level of risk level are used as depositories.

Depositories actively used by the School during the year are detailed as follows:

- |                     |                                                   |
|---------------------|---------------------------------------------------|
| 1. Huntington Bank  | 4. Michigan Liquid Asset Fund                     |
| 2. Chemical Bank    | 5. Municipal Investors Service Corporation (MBIA) |
| 3. Fifth Third Bank | 6. Newaygo County Service Employees CU            |

**NOTE C STEWARDSHIP, COMPLIANCE AND ACCOUNTABILITY**

State of Michigan Public Act 621 requires that the General Fund and Special Revenue Funds of the School District be under budgetary control and that both budgeted and actual financial results do not incur a deficit. The District's Major Fund, Debt Service, is not required to adopt a budget. The District's Budget Appropriations Act must be adopted before the beginning of each fiscal year. No violations (dollar deviations) from the District's Appropriations Act may occur without a corresponding amendment to the Appropriations Act.

Notes to the Financial Statements (continued)

The District has the ability to amend the Appropriations Act provided that the amendment is prior to the occurrence of the deviation and prior to the fiscal year end. The District may also permit the chief administrative or fiscal officer to execute transfers between line items, without prior approval of the Board of Education. The level of control is the function level. All appropriations lapse at the end of the fiscal year.

The School District follows these procedures in establishing the budget data reflected in the financial statements:

- A. Starting in the spring, administrative personnel and department heads work with the Business Manager to establish a proposed operating budget for the fiscal year commencing the following July 1.
- B. In June a preliminary operating budget is submitted to the Board of Education by the Superintendent of Schools. This budget includes proposed expenditures and the means of financing them.
- C. Prior to June 30, a public hearing is held to obtain taxpayer comments on the proposed budget.
- D. After the budget is finalized, the Board of Education adopts an appropriations resolution setting forth the amount of the proposed expenditures and the sources of revenue to finance them.
- E. The budgets were amended at periodic times during the year to comply with PA 621.
- F. Budgets for the General, Special Revenue, and Debt Service funds are adopted on the modified accrual basis of accounting, which is consistent with generally accepted accounting principles.
- G. The budgets shown in these financial statements are as last amended through June 30, 2013.
- H. PA 621 of 1978, section 18(1), as amended, provides that a school district shall not incur expenditures in excess of the amount appropriated. There were no material overexpenditures during the year.

NOTE D INTERFUND RECEIVABLES/PAYABLES

Interfund receivable and payable balances are largely due to lag time between the dates that interfund goods and services are provided or reimbursable expenditures occur and payments between funds are made. All interfund balances are expected to be paid within one year. At June 30, 2013, the balances are as follows.

	Interfund Receivable	Interfund Payable
General Fund	\$ 287	\$ 42,260
Special Revenue - Food Service	-	287
Debt Retirement	2,879	-
Capital Projects - Sinking Fund	38	-
Capital Projects - Building & Site Fund	39,343	-
Total	<u>\$ 42,547</u>	<u>\$ 42,547</u>

Notes to the Financial Statements (continued)

NOTE E GENERAL LONG-TERM OBLIGATIONS

Summary - The long-term debt includes Bond Issues. Since none of this debt will be retired with current operating resources, they are appropriately included in the government-wide financial statement. All items will be recorded as an expenditure of the year in which they are paid, for fund statement reporting.

Bonds Payable are comprised of the following at June 30, 2013:

	Outstanding Principal 6/30/2013	Due Within One Year
	<u>                    </u>	<u>                    </u>
\$2,210,000, 2013 General Obligation (Refunding) serial bonds due in annual installments of \$235,000 to \$300,000 through 2021; interest payable semiannually at .65 to 1.80 percent.	2,210,000	235,000
\$43,875,000, 2009 General Obligation (unlimited tax) Build America Bonds due in annual installments of \$650,000 to \$2,150,000 through 2039; interest payable semiannually at 2.71 to 6.89 percent. Fremont Public Schools is eligible for a 35% credit of the interest payment.	\$41,725,000	\$ 800,000
\$8,210,000, 2008 General Obligation (Refunding) serial bonds due in annual installments of \$794,144 to \$875,225 through 2021; interest payable semiannually at 3.25 to 5.00 percent. Payments through 2010 are interest only.	6,245,000	725,000
\$2,168,800, 2009 School Bond Loan Fund loan advance due once property tax millage collection covers annual debt requirements; interest accrues at 3.00 percent.	<u>2,168,800</u>	<u>-</u>
Total Bonds	<u><u>\$52,348,800</u></u>	<u><u>\$ 1,760,000</u></u>

Advance Refunding

In 1993, the school advance refunded the callable portion (\$2,450,000) of the 1987 General Obligation Bond issue and issued \$2,830,000 of general obligation refunding bonds to provide resources to call the bonds. In 1998, the school advance refunded \$9,285,000 of the 1995 General Obligation Issue and issued \$9,780,000 of General Obligation Refunding Bonds to provide the resources to call the bonds. In 2003, the school advance refunded \$475,000 of the 1993 General Obligation (Refunding) Bonds and \$2,780,000 of the 1995 General Obligation Issue and issued \$3,545,000 of General Obligation Refunding. In 2008, the school advance refunded \$8,630,000 of the 1998 Refunding Bonds and issued \$8,210,000 of General Obligation Refunding Bonds to provide the resources to call the bonds. In 2013, the school advance refunded the callable portion (\$2,130,000) of the 2003 General Obligation Bond issue and issued \$2,210,000 of General Obligation Refunding. As a result, the refunded bonds are considered legally defeased and the liability has been removed from the general long-term debt obligations.

The refunding was undertaken to take advantage of the low interest rates available in 1993, 1998, 2003, 2008, and 2013. The 1993 and 1998 advance refunding saved \$109,000 and \$624,000 respectively spread over 20 years. The 2003 refunding resulted in a net present value savings of \$171,358, and the 2008 refunding reduced the District's interest expense approximately \$940,106 through lower debt payments over the following ten years. The 2013 refunding reduced the District's interest expense approximately \$233,388 through lower debt payments over the following eight years.

Notes to the Financial Statements (continued)

Early Retirement Payable

In May 2010, eligible District employees were offered a retirement incentive bonus of \$45,000 upon separation from the District. These amounts were to be paid in three (3) installments of \$15,000 beginning August 1, 2010. Eleven employees accepted this offer. In July of 2011, the District adopted a Voluntary Severance Plan to assist eligible teachers who elect to resign. Those that participated were to be paid \$60,000 payable to a tax deferred annuity in two payments of \$25,000 payable by December 15, 2011 and \$35,000 payable by August 1, 2012. Six employees accepted this offer.

\$ 100,000                      100,000

Compensated Absences

Compensated Absences - At present, Fremont Public School Administration accumulate up to 5 unused vacation days and are reimbursed at their current hourly or salary rate upon retirement. Custodial staff have up to July 31st of the following year to use vacation or it will be lost.

51,206  
            
\$ 151,206                                  
                                \$ 100,000

The annual requirements to amortize long-term debt outstanding as of June 30, 2013, including interest detailed as follows:

Year Ended June 30,	2009 Bond Issue		2008 Bond Issue		2013 Bond Issue	
	Principal	Interest	Principal	Interest	Principal	Interest
2014	\$ 800,000	\$ 2,687,583	\$ 725,000	\$ 255,225	\$ 235,000	\$ 33,542
2015	850,000	2,653,022	710,000	231,663	280,000	25,608

Debt Retired During Year	(3,818,855)	-	(480,990)	(4,299,845)
Debt Outstanding-June 30	<u>\$ 52,348,800</u>	<u>\$ -</u>	<u>\$ 151,206</u>	<u>\$ 52,500,006</u>
Amount Due Within One Year	\$ 1,760,000	\$ -	\$ 100,000	\$ 1,860,000

NOTE F PROPERTY TAXES

Properties are assessed as of December 31, and the related taxes become a lien on December 1 of the following year. These taxes are due on September 10 and February 14 with the final collection date of February 28 before they are added to the County tax rolls. The taxes are collected and remitted to the District by the Treasurers of the City of Fremont and the various Townships within the District. The Counties of Newaygo, Muskegon and Oceana through their Delinquent Tax Revolving Funds, advance all delinquent real property taxes to the District each year.

Property in the School District for the 2012 levy had a taxable value of \$427 million. For the 2012 levy, the School District's operating tax rate was 18 mills and its debt service tax rate was 7 mills.

NOTE G DEFINED BENEFIT PENSION PLAN

Plan Description

All district full-time employees participate in the Michigan Public School Employees' Retirement System, ("MPSERS"), a cost-sharing multiple-employer, state-wide defined benefit public employee retirement plan governed by the State of Michigan, originally created under Public Act 136 of 1945, recodified and currently operating under the provisions of Public Act 300 of 1980, as amended. MPSERS was established by the State of Michigan to provide retirement, survivor and disability benefits to the State's public school employees.

MPSERS operates within the Michigan Department of Management and Budget, Office of Retirement Systems. The Department Director appoints the Office Director who serves as Executive Secretary to the MPSERS' board, with whom general oversight of the retirement system resides. The State Treasurer serves as the investment officer and custodian for the system. The MPSERS issues a publicly available financial report that includes financial statements and required supplementary information for MPSERS. That report may be obtained by writing to Michigan Public Schools Employees Retirement System, P.O. Box 30171, Lansing, MI 48909-7671 or by calling (517)322-5103 or 1-800-381-5111.

Funding Policy

All full-time employees of the District are required by law to participate in the MPSERS. All benefits vest after 10 years of service. Basic plan members may retire at age 55 with 30 years of credited service, or at age 60 with 10 or more years of credited service. A Member Investment Plan (MIP) member may retire at age 46 with 30 years of credited service, at age 60 with 10 or more years of credited service, or at age 60 having worked through 60th birthday with 5 years of service immediately preceding retirement effective date. There is no mandatory retirement age.

Both basic and MIP plan members may retire at age 55 with 15 years of service (with five of the years immediately preceding retirement effective date) and receive reduced early retirement benefits. The system also provides non-duty disability benefits and non-duty death benefits after 10 years (less if age 60 or older) of service for MIP members and 15 years of service for basic plan members (less if age 60 or older). The service provision is waived for duty disability and duty death benefits.

The retirement benefit is based on a member's years of credited service (employment) and final average compensation. Final average compensation is the member's highest total wages earned during a specific period of consecutive calendar months divided by the service credit accrued during that same period. This period for MIP members is 36 consecutive months and for basic members is 60 consecutive months yielding the highest total wages. A pension is payable monthly for the lifetime of a retiree or survivor and equals 1.5% or 1.25% of a member's final average compensation multiplied by the total number of years of credited service.

The election of a pension option is made at the time of application. Once a member has retired, the option choice is irrevocable. The pension effective date is the first of the calendar month following the date the member has satisfied the age and service requirements, has terminated public school employment and has the completed application forms on file with the System for a period of 15 days. A retroactive pension can be paid for no more than 12 calendar months. Thus, delay in filing the application can result in a loss of some retroactive pension benefits. An applicant may select only one of the following options: straight life, survivor options and equated plans. Mandatory member contributions were phased out between 1974 and 1977 with the plan remaining noncontributing until January 1, 1987, when the Member Investment Plan (MIP) was enacted.

#### Pension Benefits

On May 19, 2010, Public Act 75 of 2010 was signed into law. As a result, any member of MPSERS who became a member of MPSERS after June 30, 2010 is a Pension Plus member. The Pension Plus Plan pairs a guaranteed retirement income (defined benefit pension) with a flexible and transferable retirement savings (defined contribution) account.

On September 4, 2012, Public Act 300 of 2012 was signed into law and allowed all active members of the MPSERS, with certain requirements, a voluntary election regarding their retirement healthcare. Also, some members were granted a voluntary election regarding their pension. The legislation also established benefits for employees who first work on or after September 4, 2012, directed changes to the rates that public schools contribute to the retirement system, and ordered several plan and benefit related studies. The retirement healthcare election allowed for continuation of contributions to the Retiree Healthcare Fund, or to voluntarily elect to establish a portable, tax-deferred fund that can be used to pay healthcare expenses in retirement. The pension election allowed for four (4) choices resulting in varying pension multipliers upon retirement or no pension contribution (a defined contribution plan).

Member Investment Plan (MIP) members enrolled in MIP prior to January 1, 1990 contribute at a permanently fixed rate of 3.9% of gross wages. The MIP contribution rate was 4.0% from January 1, 1987, the effective date of the MIP, until January 1, 1990 when it was reduced to 3.9%. Members first hired January 1, 1990 or later and returning members who did not work between January 1, 1987 through December 31, 1989 contribute at the following graduated permanently fixed contribution rates: 3% of the first \$5,000; 3.6% of \$5,001 through \$15,000; up to 6.4% of all wages over \$15,000. After February 1, 2013, when Public Act 300 of 2012 elections became effective, one of the options allowed MIP members to increase their contributions to 7% to maintain the 1.5% multiplier.

Basic Plan members make no contributions. Market rate interest is posted to member accounts on July 1st on all MIP contributions. If a member leaves MPSERS service and no pension is payable, the member's accumulated contribution plus interest, if any, are refundable. After February 1, 2013, when Public Act 300 of 2012 elections became effective, one of the options allowed for Basic members to contribute 4% to maintain the 1.5% multiplier.

The Agency is required to contribute the full actuarial funding contribution amount to fund pension benefits plus an additional amount to fund retiree health benefit amounts. The rate for July 1, 2012 through September 30, 2012 was 24.46% for the base plan and 23.23% for Pension Plus members. Effective October 1, 2012, the rate increased to 27.37% for the base plan and 26.14% for Pension Plus Members. Effective February 1, 2013, the rates ranged from 20.96% to 24.32%. As of October 1, 2013, the rates will range from 20.96% to 24.79%. In addition, the Agency is required to match up to 4% of the employees' contribution. Effective September 3, 2012, new employees were enrolled in a personal health care fund with a mandatory 2% employer match. The contribution requirements of plan members and the Agency are established and may be amended by the MPSERS Board of Trustees.

Other Post Employment Benefits

Retirees have the option of health coverage which is funded on a cash disbursement basis by the employers. The State of Michigan has contracted to provide the comprehensive group medical, hearing, dental and vision insurance coverage for retirees and beneficiaries. All health care benefits are on a self-funded basis. A significant portion of the premium is paid by the system with the balance deducted from the monthly pension.

Public Act 75 of 2010 requires each actively employed member of MPSERS after June 30, 2010 to contribute 3% of their compensation to offset employer contributions for health care benefits for current retirees (with a reduced contribution for employees with wages of less than \$18,000 in the first year). Effective April 1, 2011, a court order eliminated this requirement. The court order was appealed by the State of Michigan. The Court of Appeals has denied the stay and the schools are waiting for guidance, but are continuing to withhold this payment until that guidance is received as instructed by the Office of Retirement Services.

Public Act 300 of 2012 allowed members to elect out of the Healthcare Premium Subsidy and into the Personal Healthcare Fund depending upon their date of hire and retirement plan election. The Healthcare Premium Subsidy remains at a 3% member contribution. Members with a Personal Healthcare Fund contribute 2% into their 457 plan account and earn an employer match to a 401(k) account of 2%.

Annual Pension and Other Costs

During the plan year ended September 30, 2012, benefit expenditures for the pension and postemployment benefits for the MPSERS as a whole were \$5,118,844,382. As of September 30, 2012, the amount of Net position held in trust for pension and health care benefits was \$39,597,111,916. At September 30, 2012 there were 436,597 members in the MPSERS, of which 196,661 were actively receiving benefits, 113,519 were vested employees, 110,250 were non-vested employees and 16,167 were inactive employees entitled to benefits and not yet receiving them. Actual contributions for retirement benefits were \$1,789,909,786. Annual payrolls for the fiscal year ended September 30, 2012 were not available.

For the fiscal year ended June 30, 2013, the District's annual pension cost of \$2,646,680 was equal to the District's required and actual contributions. The required contribution was determined as part of the September 30, 2011 actuarial valuation using the following assumptions:

Valuation Date	September 30, 2011
Actuarial Cost Method	Entry Age, Normal
Amortization Method	Level Percent of Payroll, Closed
Remaining Amortization Period	25 Years
Asset Valuation Method	5-year Smoothed Market Value

Notes to the Financial Statements (continued)

Actuarial Assumptions:

Inflation Rate	3.5%
Investment Rate of Return	8%
Projected Salary Increases	3.5% - 15.9%
Cost-of-Living Adjustment	3% annual MIP Members

Three-Year Trend Information

Fiscal Year Ending June 30	Annual Pension Cost	Percentage of APC Contributed	Net Pension Obligation
2011	\$ 2,146,752	100%	-
2012	\$ 2,630,209	100%	-
2013	\$ 2,646,680	100%	-

NOTE H RELATED PARTY TRANSACTIONS

There were no related party transactions for the fiscal year ended June 30, 2013.

NOTE I SHORT TERM NOTE PAYABLE (See Also Note O)

In August 2012, the School entered into a State Aid Note for \$1,500,000 with Chemical Bank for the purpose of providing money for school operations for the fiscal year ending June 30, 2013. The note bears interest at .79% and was repaid in August 2013.

Short-Term Debt Outstanding, July 1, 2012	\$ -
Debt Added During the Year	1,500,000
Debt Retired During the Year	-
Short-Term Debt Outstanding June 30, 2013	<u>\$ 1,500,000</u>

NOTE J FIXED ASSETS

Capital asset balances and for the year ended June 30, 2013 were as follows:

<b>Governmental-Type Activities</b>	Balance 6/30/2012	Additions	Adjustments Deletions	Balance 6/30/2013

Support Services-Administration	21,676
Operation and Maintenance	7,904
Student Transportation	61,368
Food Services	10,115
Athletics	<u>22,275</u>
Total Depreciation Expense	<u>\$ 2,102,071</u>

NOTE K CAPITAL PROJECTS-BUILDING & SITE FUND

The Capital Projects-Building & Site Fund includes capital project activities funded with bonds issued after May 1, 1994. For these capital projects, the school district has complied with the applicable provisions of Section 1351a of the Revised School Code.

Beginning with the year of bond issuance, the District has reported the annual construction activity in the capital projects-building & site fund. The projects for which the 2009 Build America Bonds were issued were in process as of June 30, 2013 and the cumulative expenditures recognized for the construction period were as follows.

The following is a summary of the revenue and expenditures for the capital projects-building & site bond activity since inception:

	Building & Site Fund
Revenue and other financing sources	<u>\$ 44,656,496</u>
Expenditures	<u>\$ 43,121,112</u>

Revenue and other financing sources include the net bond proceeds of \$43,476,281.

NOTE L RISK MANAGEMENT

The School District is exposed to various risks of loss related to torts; theft of, damage to and destruction of assets; errors and omissions; and natural disasters for which the School District carries commercial insurance. Liabilities in excess of insurance coverage, if any, are reported when it is probable that a loss has occurred and the amount of the loss can be reasonably estimated.

Revenue and other financing sources include the net bond proceeds of \$43,476,281.

Notes to the Financial Statements (continued)

NOTE M ECONOMIC DEPENDENCE

Effective for fiscal year ended June 30, 1995, the revision of the State of Michigan (State) school aid formula for local public schools significantly increased State school aid and the change in property tax laws significantly decreased local property tax revenues. As a result, State of Michigan revenues represent 77.1% percent of total General Fund revenues.

NOTE N SUBSEQUENT EVENTS

In preparing these financial statements, management has evaluated, for potential recognition or disclosure, significant events or transactions that occurred during the period subsequent to June 30, 2013, the most recent balance sheet presented herein, through October 22, 2013, the date these financial statements were available to be issued. The following significant events or transactions were identified:

State Aid Note

The School District entered into an additional State Aid Note for \$1,800,000 on September 18, 2013. The note will bear interest at .89% and mature September 18, 2014.

NOTE O ADOPTION OF NEW ACCOUNTING STANDARDS

The Government Accounting Standards Board issued Statement No. 63, *Financial Reporting of Deferred Outflows of Resources, Deferred Inflows of Resources, and Net Position*, which Fremont Public Schools adopted effective July 1, 2012. The new standard creates a new financial reporting format to include deferred inflows and outflows of resources and their effects on Fremont Public School's net position. As of June 30, 2013, Fremont Public Schools does not have transactions that would be classified as deferred outflows or deferred inflows. Thus, they are not included in the statement of net position this year.

The Government Accounting Standards Board issued Statement No. 62, *Codification of Accounting and Financial Reporting Guidance Contained in Pre-November 30, 1989 FASB and AICPA Pronouncements*, which Fremont Public Schools adopted effective July 1, 2012. This statement incorporates into GASB literature certain accounting and financial reporting guidance issued on or before November 30, 1989 that is included in FASB statements and interpretations, APB opinions, and accounting research bulletins of the AICPA Committee on Accounting Procedure. This statement did not have a significant impact on the School's financial Statements.

NOTE P UPCOMING ACCOUNTING PRONOUNCEMENT

In June 2012, the Government Accounting Standards Board (GASB) issued Statement No. 68, *Accounting and Financial Reporting for Pension*. Statement No. 68 requires governments providing defined benefit pensions to recognize their unfunded pension benefit obligation as a liability for the first time, and to more comprehensively and comparably measure the annual costs of pension benefits. This net pension liability that will be recorded on the government-wide statements will be computed differently than the current accountability and transparency through revised note disclosures and required supplemental information (RSI). The School District is currently evaluating the impact this standard will have on the financial statements when adopted. The provisions of this statement are effective for financial statements for the year ending June 30, 2015.

**NOTES:**

1. The significant accounting policies used in preparing this schedule are the same as those utilized in preparing the general purpose financial statements and are explained on pages 20 through 26.
2. Management has utilized the MDE Cash Management System (CMS) Grant Auditor Report (GAR) in preparing the schedule of expenditures of federal awards.
3. There are no federal loan balances reported on this schedule. Pass-through funds are reported from the Newygo Regional Educational Service Agency for Special Education.

Independent Auditor's Report on Internal Control Over Financial Reporting and on  
Compliance and Other Matters Based on an Audit of Financial Statements  
Performed in Accordance with *Governmental Auditing Standards*

Board of Education  
Fremont Public School District  
Fremont, Michigan 49412

We have audited, in accordance with the auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards* issued by the Comptroller General of the United States, the financial statements of the governmental activities, the business-type activities, each major fund, and the aggregate remaining fund information of Fremont Public Schools, as of and for the year ended June 30, 2013, and the related notes to the financial statements, which collectively comprise Fremont Public School's basic financial statements, and have issued our report thereon dated October 22, 2013.

**Internal Control Over Financial Reporting**

In planning and performing our audit of the financial statements, we considered Fremont Public School's internal control over financial reporting (internal control) to determine the audit procedures that are appropriate in the circumstances for the purpose of expressing our opinions on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of Fremont Public School's internal control. Accordingly, we do not express an opinion on the effectiveness of Fremont Public School's internal control.

A *deficiency in internal control* exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct misstatements on a timely basis. A *material weakness* is a deficiency, or a combination of deficiencies, in internal control such that there is a reasonable possibility that a material misstatement of the entity's financial statements will not be prevented, or detected and corrected on a timely basis. A *significant deficiency* is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

Our consideration of internal control was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control that might be material weaknesses or, significant deficiencies. Given these limitations, during our audit we did not identify any deficiencies in internal control that we consider to be material weaknesses. However, material weaknesses may exist that have not been identified. We did identify certain deficiencies in internal control, described in the accompanying schedule of findings and questioned costs that we consider to be significant deficiencies - 2013-001

**Compliance and Other Matters**

As a part of obtaining reasonable assurance about whether Fremont Public School's financial statements are free of material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts and grant agreements, noncompliance with which could have a direct and material effect on the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of our audit and, accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards*.

**Purpose of this Report**

The purpose of this report is solely to describe the scope of our testing of internal control and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the entity's internal control or on compliance. This report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the entity's internal control and compliance. Accordingly, this communication is not suitable for any other purpose.

**Report on Compliance for Each Major Federal Program**

We have audited Fremont Public School's compliance with the types of compliance requirements described in the OMB Circular A-133 Compliance Supplement that could have a direct and material effect on each of Fremont Public School's major federal programs for the year ended June 30, 2013. Fremont Public School's major federal programs are identified in the summary of auditor's results section of the accompanying schedule of findings and questioned costs.

**Management's Responsibility**

Management is responsible for compliance with the requirements of laws, regulations, contracts, and grants applicable to its federal programs.

**Auditor's Responsibility**

Our responsibility is to express an opinion on compliance for each of Fremont Public School's major federal programs based on our audit of the types of compliance requirements referred to above. We conducted our audit of compliance in accordance with auditing standards generally accepted in the United States of America; the standards applicable to financial audits contained in Government Auditing Standards, issued by the Comptroller General of the United States; and OMB Circular A-133, Audits of States, Local Governments, and Non-Profit Organizations. Those standards and OMB Circular A-133 require that we plan and perform the audit to obtain reasonable assurance about whether noncompliance with the types of compliance requirements referred to above that could have a direct and material effect on a major federal program occurred. An audit includes examining, on a test basis, evidence about Fremont Public School's compliance with those requirements and performing such other procedures as we considered necessary in the circumstances.

We believe that our audit provides a reasonable basis for our opinion on compliance for each major federal program. However, our audit does not provide a legal determination of Fremont Public School's compliance.

**Opinion on Each Major Federal Program**

In our opinion, Fremont Public School's, complied, in all material respects, with the types of compliance requirements referred to above that could have a direct and material effect on each of its major federal programs for the year ended June 30, 2013.

**Report on Internal Control Over Compliance**

Management of Fremont Public School's, is responsible for establishing and maintaining effective internal control over compliance with the types of compliance requirements referred to above. In planning and performing our audit of compliance, we considered Fremont Public School's internal control over compliance with the types of requirements that could have a direct and material effect on each major federal program to determine the auditing procedures that are appropriate in the circumstances for the purpose of expressing an opinion on compliance for each major federal program and to test and report on internal control over compliance in accordance with OMB Circular A-133, but not for the purpose of expressing an opinion on the effectiveness of internal control over compliance. Accordingly, we do not express an opinion on the effectiveness of Fremont Public School's internal control over compliance.

*A deficiency in internal control over compliance* exists when the design or operation of a control over compliance does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, noncompliance with a type of compliance requirement of a federal program on a timely basis. *A material weakness in internal control over compliance* is a deficiency, or combination of deficiencies, in internal control over compliance, such that there is a reasonable possibility that material noncompliance with a type of compliance requirement of a federal program will not be prevented, or detected and corrected, on a timely basis. *A significant deficiency in internal control over compliance* is a deficiency, or a combination of deficiencies, in internal control over compliance with a type of compliance requirement of a federal program that is less severe than a material weakness in internal control over compliance, yet important enough to merit attention by those charged with governance.

Our consideration of internal control over compliance was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control over compliance that might be material weaknesses or significant deficiencies. We did not identify any deficiencies in internal control over compliance that we consider to be material weaknesses. However, material weaknesses may exist that have not been identified.

The purpose of this report on internal control over compliance is solely to describe the scope of our testing of internal control over compliance and the results of that testing based on the requirements of OMB Circular A-133. Accordingly, this report is not suitable for any other purpose.

## FREMONT PUBLIC SCHOOLS

### Schedule of Findings and Questioned Costs For the Year Ended June 30, 2013

#### Section I - Summary of Auditor's Results

##### Financial Statements

1. Type of auditor's report issued is unmodified.
2. Internal control over financial reporting.
  - a. No material weaknesses were identified.
  - b. Significant deficiency identified that is not considered to be material weakness.
3. No Noncompliance material to the financial statements noted.

##### Federal Awards

1. Internal control over major programs:
  - a. No material weaknesses identified.
  - b. No significant deficiency(ies) identified that are not considered to be material weaknesses.
2. The type of auditor's report issued on compliance for major programs is unmodified.
3. Audit findings were disclosed that are required to be reported in accordance with section 510(a) of Circular A-133.
4. The programs tested as a major programs included:

Title I	CFDA #:	84.010
---------	---------	--------
5. The threshold for distinguishing Types A and B programs was \$300,000.
6. Fremont Public School District was determined to be a low risk auditee.

#### Section II - Financial Statement Findings

##### 2013-001

***Finding Type***- Significant Deficiency

***Criteria*** -Segregation of Duties

***Condition*** - For effective internal controls, authorization, bookkeeping, access to assets, and independent reconciliation functions should be separated.

***Context/Cause*** -Due to the limited number of employees in the accounting department an adequate segregation of duties has not been implemented by the District.

***Effect*** - It may be possible for District employees to appropriate assets or misstate data, both intentionally or unintentionally, without discovery by another school employee.

***Corrective Action Plan***- Fremont Public Schools will continue to look for cost effective ways to monitor and improve this limitation in internal controls.

#### Section III - Federal Award Findings and Questioned Costs

*No Findings*

## FREMONT PUBLIC SCHOOLS

Schedule of Prior Audit Findings  
For the Year Ended June 30, 2013

Audit Period: For the Year Ended June 30, 2012

The finding from the June 30, 2012 schedule of findings and questioned costs are discussed below. The findings are numbered consistently with the numbers assigned in the schedule.

### Section II - Financial Statement Findings

#### 2012-001

***Finding Type***- Significant Deficiency

***Criteria*** -Segregation of Duties

***Condition*** - For effective internal controls, authorization, bookkeeping, access to assets, and independent reconciliation functions should be separated.

***Context/Cause*** -Due to the limited number of employees in the accounting department an adequate segregation of duties has not been implemented by the District.

***Effect*** - It may be possible for District employees to appropriate assets or misstate data, both intentionally or unintentionally, without discovery by another school employee.

***Corrective Action Plan***- Fremont Public Schools will continue to look for cost effective ways to monitor and improve this limitation in internal controls.

*This finding is repeated in the current fiscal year.*
