### **Grade 3, Week 3**

During this mandatory shut down we are encouraging you to spend time together reviewing 3<sup>rd</sup> grade outcomes.

Each 3<sup>rd</sup> grader should be able to log into their Raz-Kids account, which has great stories and comprehension questions. Mystery Science ([mysteryscience.com](http://mysteryscience.com)) is offering free access at home for wonderful science lessons and hands-on experiments. Moby Max ([www.MobyMax.com](http://www.MobyMax.com)) and Scholastic ([www.scholastic.com/learnathome](http://www.scholastic.com/learnathome)) are also offering a limited free access account for students during this time.

We recommend reading daily at least 45 minutes and make sure you are also reading and enjoying The Seven Wonders of Sassafra Springs together as a family.

We appreciate your initiative and cooperation during this time!

The Third Grade Team,

Read the passage below. Answer the questions.

The Carnival of Venice is an internationally famous event that started in 1268. The carnival starts 54 days before Easter, and it lasts for two weeks. So why do Italians celebrate the Carnival of Venice? In the year 1162, the Republic defeated Ulrico, Patriarch of Aquileia and began slaughtering a bull and 12 pigs. This celebration gradually grew, and in 1268, celebrators started wearing masks.

The eighteenth century was the most popular time for the Carnival. The leaders in charge of Italy loved throwing lavish celebrations. The popularity of the carnival started to decline until the 1930s when it was banned by Mussolini. In 1979, the carnival started again, and has continued to grow in popularity.

If you were to go to Italy during the Carnival of Venice, you would see many people dressed up in beautiful costumes. Women wear elaborate gowns, and men wear fancy outfits. Many people also wear masks.
